LEGAL · COMPLIANCE

Cases, contracts and evidence organized, traceable and audit-ready

We help legal departments and law firms read, classify and protect documents with AI, without breaking the chain of custody.

THE LANDSCAPE

Volume grows faster than the team

Every case generates filings, contracts, notices and deadlines. When it all lives in folders and spreadsheets, you risk missing deadlines, collecting on disputed credit or lacking the right evidence at audit time.

75.5M
cases pending in Brazilian courts at the end of 2025
CNJ, Justiça em Números 2026

40.9M
new cases in 2025, the highest on record
CNJ, Justiça em Números 2026

3 yrs 7 mos
is the average age of a pending case

HOW WE CAN HELP

- **AI document handling**
  Reading, summarizing and classifying filings, contracts and notices.
- **Chain of custody**
  Preservation and integrity of legally valid digital evidence.
- **Conflict-free collections**
  Blocks collection of credits under legal dispute.
- **Audit trail**
  Immutable record of who accessed, changed or sent each document.
- **Asset control**
  Real-time view of assets tied to litigation, collateral and liabilities.
- **LGPD and consent**
  Auditable opt-in and opt-out management and fast response to the ANPD.

ANALYTICS .DAMCH

SECTOR EXPERIENCE

AI pipelines for triaging and reading legal documents, integrated with the case database.

Data governance and audit trails in regulated environments, compliant with LGPD.
